

AUCCCD Survey 2008 – Using the online Interactive Reporting: Using the Filter to look at a subset of the Survey Responses.

Prepared by Victor W. Barr, Ph.D. 04/13/09

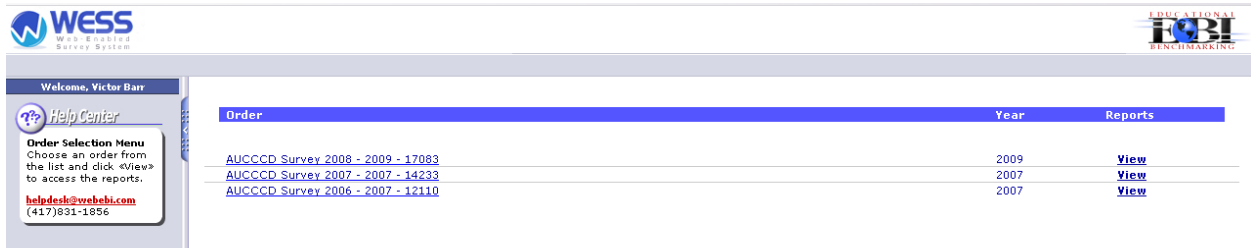

In this document I will create two different filters. Remember that these filters only show up based on your own login. These were chosen to show newly available levels of filtering. The first is New York state centers. The second is a selected group of schools.

Remember your subset must have 6 or more in the sample to be able to display. This means there must be 6 with data. When I first started I was going to do Tennessee Public Universities. I did not get six sets of data even though I picked more than six schools.

General Instructions

EBI recommends that you use Mozilla Firefox and make sure you have the latest upgrade which can be found at [://en-us.www.mozilla.com/en-US/](http://en-us.www.mozilla.com/en-US/). It is 3.0.8.

Each director was sent an individualized link to the Interactive Reporting features. Using your link to the survey should result in the following webpage.

Order	Year	Reports
AUCCCD Survey 2008 - 2009 - 17083	2009	View
AUCCCD Survey 2007 - 2007 - 14233	2007	View
AUCCCD Survey 2006 - 2007 - 12110	2007	View

Under Order click on the AUCCCD Survey 2008-2009 -17083 under Reports View. The following results.

Hide Toolbar | AUCCCD Survey 2008 - 2009 - 17083

Other (Specify Below)

Answer

- Family Nurse Practitioner
- Professional Clinical Counselor
- Nurse
- Licensed Clinical Social Worker
- LPC & MFT

First Filter: New York state schools.

Remember your subset must have 6 or more in the sample to be able to display.

I am going to create a filter for centers in NY.

Click the Filters tab. And click the filtering on under advanced filtering.

Help & Support

Next click Filtering on and you will see the following in the middle of the page.

Advanced Filter

Getting Started:

1. Choose a question from the list on the left.
2. Choose the answers you'd like to see for that question.
3. As you build your filter, you'll be able to see your progress in this panel.
4. When you're done, **name your filter** and click the Save & Apply button to save the filter and apply it to the reports.

Questions

Response Date	← Please choose a question from the list.

Save & Apply

Now select the universities by checking the boxes. It is easiest to do if you alphabetize your list. An annoying aspect of this is that the list resets each time. When finished change the Filter Name and click the [save Apply] button. You now have a filter that shows you data on your comparison schools.
