

Part-Time Salaried Psychotherapist Position in Mental Health Services of Columbia University Medical Center

We are seeking an experienced and licensed psychotherapist with background in multicultural competence/intersectional issues in psychotherapy as well as trauma-informed care. Psychodynamic background a plus, as is experience in university mental health. The clinician will be offering direct clinical services to students here on the medical center campus (medical, dental, nursing, PT, OT, public health, and lab-based sciences), rotating through the on-call back up service, as well as supervising a postdoctoral fellow in our Fellowship in University Counseling: Trauma, Somatics, and Intersectionality.
