

University of Michigan-Dearborn Counseling Psychologist, Senior

Job Summary

The position will provide individual and group counseling, consultation with faculty and staff, outreach and liaison services, crisis intervention, and active involvement in all training programs, and educational activities. Counseling and Psychological Services clinicians are strong generalists in the areas of solution-focused short term clinical work, group treatment, and outreach/education/community engagement work, all within a college student mental health setting. This position will provide supervision to graduate trainees and/or other clinicians without a license.

Required Knowledge, Skills, Abilities:

- Demonstrated high degree of sensitivity, interest, understanding, ability, knowledge and experience working with students from diverse ethnic, cultural, and socioeconomic backgrounds.
- Sensitivity, creativity and an understanding of developmental issues of both traditional and nontraditional college students.
- Strong analytical and conflict resolution skills.
- Excellent written and verbal communication skills, including ability to give group presentations.
- Strong organizational skills.
- Demonstrated competency and expertise in working clinically with college student/young adult populations, including individual and group work.

Responsibilities*

- Provide psychological counseling services to the University community, including: screening and diagnostic assessment; individual, couples, and group therapy for diverse students; and work with a wide range of presenting concerns.
- Provide crisis intervention to campus groups and University at-large.
- Complete suicide and homicide assessments for students in distress.

- Maintain confidential client files and appropriate record-keeping, according to professional, ethical, and legal standards.
- Design, implement and present psycho-educational programming on a broad range of psychological issues.
- Serve as a resource/consultant to administration, faculty, and staff, aimed at bringing a psychological perspective to University concerns.
- Provide interdepartmental and interdisciplinary collaboration.
- Attend staff and professional development meetings.
- Engage in continuing education to improve clinical skills.
- Provide clinical supervision for trainees of appropriate fields

Required Qualifications*

- Minimum of Master's Degree in Counseling, Social Work, Clinical, or Clinical/Counseling Psychology. Doctorate degree preferred.
- Must currently possess full licensure or ability to obtain full licensure for independent practice in the State of Michigan including LP, LMSW or LPC

U-M EEO/AA Statement

The University of Michigan is an equal opportunity/affirmative action employer.
